

Established in the year 1988, Indian Printing Packaging & Allied Machinery Manufacturers' Association (IPAMA) has been in the centre-stage, since its inception, to promote the Indian printing and packaging Industry on different domestic and international platforms through various modes. The Association has also been providing necessary inputs on policy related issues to concerned Government organisations, in collaboration with CII, FICCI, Department of Heavy Industry, BIS, PHDCCI, EEPC etc. It is also working on Make-in-India policy and to maximise exports, simultaneous reduction of imports and development of latest technology and infrastructure across the country, particularly for the MSME Units.

IntraPac India is the latest addition in the long history (journey) of IPAMA which will be held from March 14-17, 2024 at India Expo Centre, Greater Noida, NCR Delhi. The venue is equipped with all the modern facilities for organising National and International Exhibitions and also well connected with different modes of transport facilities. During IntraPac India, meet the Manufacturers, Packagers, Indian & Foreign Traders and Dealers in different packaging products, under a single roof.
